EDUCATION

Misr University for Science and Technology Giza, EG
B.Sc. in Computer & Software Engineering 2021 – 2026

EXPERIENCE & TRAINING

Diploma in Mobile Development Apr 2025 – Sep 2025
Route Academy

- Learned cross-platform development with Flutter, using Firebase for backend services, Hive for local storage, and pub.dev libraries for UI/UX.
- Built mobile applications integrating RESTful APIs, authentication, and real-time features.
- Applied agile practices, teamwork, and deployment workflows to simulate real-world projects.

Mobile Development Summer Camp Summer 2025
Microsoft x Sprints

- Built mobile apps in Flutter/Dart with Firebase integration.
- Focused on UI/UX design, state management, and publishing workflow.
- Presented app demos to mentors, receiving feedback on design patterns.

Computer Vision and IoT Training Summer 2025
AOI (Arab Organization for Industrialization)

- Integrated sensors & microcontrollers with Python/OpenCV for IoT systems.
- Created smart object-detection and automation prototypes.
- Delivered a working demo combining hardware and AI vision.

Software Testing Training Summer 2024
We Telecom

- Performed manual & automated testing using Selenium and JIRA.
- Designed test cases and tracked issues across development cycles.
- Ensured product quality through regression and performance testing.

Cloud Computing Training Summer 2023
We Telecom

- Deployed and optimized applications on Google Cloud Platform.
- Learned cloud storage, IAM policies, and scalable architecture.
- Worked on practical labs simulating enterprise-level cloud apps.

AI Fundamentals Summer 2023
Impact @ Zewail City

- Studied ML, DL, and NLP foundations with TensorFlow & scikit-learn.
- Built prototype ML models for classification and prediction tasks.
- Explored ethical AI considerations and deployment challenges.

PROJECTS

Flutter Projects

Lost in Egypt — Graduation Project 2025-2026
Flutter, Firebase, AI/ML, Google Maps API, Computer Vision

- Built a smart tourism mobile application designed to help tourists and locals explore Egypt more easily.
- Implemented AI-powered trip planning, personalized recommendations, and landmark recognition using the camera.
- Integrated interactive maps, multilingual support, and community features for sharing experiences.

ToDo-List App 2025
Flutter, Firebase, Hive

- Developed event planning app with real-time updates and offline support.

- Implemented Hive for local storage and optimized cross-platform UI.
- Added user authentication, search, and notification features.

Movie App 2025

Flutter, REST API

- Integrated external APIs to fetch movies and added search/filter options.
- Designed responsive UI with adaptive layouts and pagination.
- Implemented favorites list and caching for faster performance.

Muslim App 2025

Flutter, Dart

- Created Islamic app with Quran, prayer times, and localization.
- Applied clean architecture and reusable Flutter components.

My Shopping App 2025

Flutter, Dart

- Developed e-commerce app with product grid, cart, and checkout.
- Added routing, asset images, and Firebase backend integration.
- Focused on intuitive UI/UX and responsive layout.

Python & AI Projects

AI Chat-bot 2023

Python, Flask, NLP

- Built chatbot with NLTK/spaCy trained on 500+ Q&A pairs.
- Enhanced accuracy by 35% using intent classification.
- Deployed with Flask API for web integration.

Computer Vision Object Detection 2023

Python, OpenCV

- Implemented object detection using Haar cascades and HOG+SVM.
- Applied preprocessing for accuracy on real-time webcam feeds.
- Integrated into IoT prototypes for automation tasks.

TECHNICAL SKILLS

Programming Languages: Dart, Python, C++, JavaScript, HTML/CSS

Mobile Development: Flutter, Firebase (Auth, Firestore), Hive, pub.dev libraries, State Management

Backend & APIs: RESTful APIs, FastAPI, Flask, Node.js basics

Cloud Platforms: Google Cloud Platform (GCP), Firebase Hosting, Deployment workflows

Web Development: React, HTML/CSS, JavaScript, Responsive Design

AI/ML & CV: OpenCV, TensorFlow, scikit-learn, NLP (NLTK, spaCy)

IoT & Embedded Systems: Arduino, ESP, Sensors, GSM Modules, Hardware Integration

Tools & Practices: Git/GitHub, Postman, JIRA, Agile/Scrum, Selenium (Testing)

PERSONAL SKILLS

Teamwork & Collaboration | Problem Solving | Communication Skills | Time Management | Adaptability | Attention to Detail | Presentation Skills | Self-Learning | Creativity | Agile/Scrum Workflow
